Lesson 4

This project will consist of a top navigation with a minimum of (6) pages and a minimum of 4 active social media icon buttons. The Navigation bar will feature either your logo or your choice of rounded edges or circle image of "you" with a drop down menu.

The page must meet the following criteria:

- All CSS is external
- Minimum of 3 Google Font API's
- Google Map API
- All pages that require scrolling include a scroll spy
- All navigation bars must be of a color (not black or default)
- All navigation bars must indicate if they are active, and possess the hover feature
- All buttons must include a glyphicon of font awesome icon
- All sites must start in the Git Bash terminal
- All sites must be internet accessible outside of GitHub
- All pages are titled with a title that reflects its content. Example: Nick Curlett-Home Page
- Home page includes a jumbotron and carousel with a maximum content of 4 images
- Usage of the following:
  - Left and right collapsible navbar
  - Images classes rounded, circle and thumbnail
  - Aspect ratio correct
  - Jumbotron
  - Carousel
  - Buttons
  - Paginations
  - List groups
  - Panels
  - Dropdown menu
  - Tabs
  - Modal
  - Media object
  - Scroll spy
  - Glyphicons and Font Awesome
  - Responsive web design

- The page names will be as followed:
  - Home
    - Must include a jumbotron and 4 image carousel
  - About
    - Compose as you deem, content must be relevant to page
  - Portfolio
    - This page will reflect your entire web projects completed or not. Use media object as your layout with a working link to your projects (button) or image. The image must reflect your project and a caption instructing how to go to your project.
  - Gallery
    - Your theme, with captions, a minimum of 12 images. Use thumb nails and 4 images across. The page heading will be separated from the images by a colored horizontal rule.
    - Destination images a minimum of 800px in width and aspect ratio correct
  - (Your Choice Topic)
    - A soapbox topic: Some form of social aware that is not defamatory to anyone, person or thing.
  - Contact
    - A map to Launchcode or the place pertaining to the relevant content of your website
    - Contact information
    - An image of you or the relevant logo of the map destination
